DR. J. COLLIS BROWNE'S

(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr J COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times,* July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE. *See Lancet,* Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [December, 1865] that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal,* Aug. 1, 1869, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.

Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s. fe3wly

Location of Works, North Fork of Quesnelle River.

ASSESSMENT NO. 1.

NOTICE IS HEREBY GIVEN, THAT AT A meeting of the Trustees of said company held on the 29th day of May, 1880, the 1st assessment of twenty-five cents per share was levied upon the capital stock of said company, payable forthwith to Charles Wilson, Secretary, at the Company's office, Barkerville, B. C.

Any stock upon which said assessment shall remain unpaid on the 29th day of June, 1880, shall be deemed delinquent, and will be duly advertised for sale at Public Auction, and unless payment be made before, will be sold on the 23rd day of July, 1880, to pay the delinquent assessment, together with costs of advertising and expenses of the sale.

TO THE SHAREHOLDERS OF THE

QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—

During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.

At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 20 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.

A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.

Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1256 67.

Good and substantial buildings have been erected over all the works.

The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.

The improvements made by the Dominion Government in the Cottonwood Canon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.

The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

	$ 10,346 46

From the foregoing it will be seen that there are debts or liabilities owing by the company.

The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances.

Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc, the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time.

WARNER'S SAFE REMEDIES

WARNER'S SAFE PILLS

Are an immediate and active stimulus for a Torpid Liver, and cure Costiveness, Dyspepsia, Biliousness, Billous Diarrhœa, Malaria, Fever and Ague, and should be used whenever the bowels do not operate freely and regularly.

Their action is gentle than that of other pills, and at the same time more effective. No other pills require such small doses for thorough work.

They have been used with great success in the English army where Malaria prevails, and are the best antidote for all kinds of Malarial Poison.

People who live or work in unhealthy places, and those of sedentary habits, should use them. Taken at bed-time, they promote rest and bring on natural evacuations the next forenoon.

They do not act directly on the bowels, but indirectly through the liver, by causing it to secrete the necessary bile, and should always be preferred to pills which operate as a violent cathartic, causing nausea and weakness.

Price, 25 cents a Box.

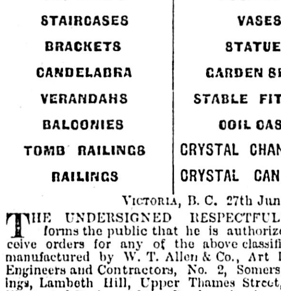

WARNER'S SAFE NERVINE

Quickly gives Rest and Sleep to the suffering, cures Headache and Neuralgia, prevents Epileptic Fits, and relieves Nervous Prostration brought on by excessive drink, over-work, mental shocks and other causes.

Powerful as it is to stop pain and soothe disturbed nerves, it never injures the system, whether taken in small or large doses.

It often arrests the progress of serious diseases by the recuperative rest which it produces, and is beneficial in all painful diseases.

Warner's Safe Nervine is the improved discovery of the most skilful nerve doctor of the world, and an inestimable blessing to all who suffer. Bottles of two sizes: prices, 50 cts. and $1.00.

Warner's Safe Kidney and Liver Cure, Safe Diabetes Cure, Safe Bitters and Safe Tonic are also superior remedies, unequalled in their respective fields of disease.

Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country. Send for Pamphlet and Testimonials.

A CONTRACTOR'S REMEDY.

We have waited in vain for some days for an explanation from the government of the causes that led to their refusal to refer the claims of REED BROTHERS & Co. to arbitration. More than a week has elapsed since the application of the contractors to force the government to pursue a course which between man and man would be deemed a perfectly equitable method of settling a disputed account, was denied by the full bench; and it is high time that the public were placed in possession of the reasons that impelled the government to a course which, to say the very least, must be regarded as unusual. The skillful argument of the learned counsel who resisted the application rested entirely on the technicalities of the case. Nothing was advanced in palliation of the course of the government. The contention on the part of the crown was that the contractors having entered into a hard and fast bargain must be held to that bargain however unjust it might prove to be. Having been enticed into signing an agreement which held them as tightly as a vice, yet allowed the government all the scope they needed to escape from any responsibility which might attach to them from the miscarriage on their part of any portion of the agreement, the contractors are entirely at the mercy of those who led them into the trap. In considering the matter after looking over the arguments adduced *pro* and *con* we are not surprised at the language of the judges in dismissing the application. The opinion of the Chief Justice and his colleagues was that REED BROTHERS & Co. and those who trusted them on the faith of the government have been hardly dealt with. The most indifferent portion of the public must see that the government are to-day in the possession of a cofferdam, a considerable portion of which has been constructed with the means of citizens of the province and cemented by the sweat of a score or two of hardworking men whose claims for labor depend for payment upon the caprice of a triumvirate who have shown on many occasions an indifference to just claims which has roused the hot indignation of creditors and caused, in some instances, a great deal of individual suffering. It must be admitted that the contractors in signing the one-sided agreement showed an amount of trustfulness which in a maiden would be regarded as a charming evidence of faith in the honest intentions of her lover; but which, when extended to business matters, is scarcely excusable, and can only be accounted for upon the assumption that the firm had been accustomed to deal with governments that did not transact business on the SHYLOCKIAN principle of "the bond." Before coming here REED BROTHERS held heavy contracts under Oriental governments, and it is probable that they found the Egyptians and Turks indisposed to take advantage of technicalities which have enabled this government to build a cofferdam at small cost to the public revenue, but at a tremendous sacrifice to many individuals amongst us. It is not flattering to Columbian ears to hear that REED BROTHERS found the despised Turks and Egyptians scorning to avail themselves of flaws and crevices in agreements to escape payment of claims of a nature similar to those which this government do not allege were not just and proper, and the province will not be favorably recommended to future contractors when they shall have read the pitiful tale of the experience of the cofferdam contractors and their creditors with the government of British Columbia. It will not improve the credit of the government or create a feverish anxiety in the minds of contractors to engage in expensive public works if they are told that over the portals of the lands and works office is written the legend "All hope abandon, ye who enter here;" nor is the blind and unquestioning confidence which contractors have been wont to repose in the James Bay trio likely to be continued. The government have failed to make good their case against REED BROTHERS. They have not tried to show that in withholding that firm's money or that in refusing to discharge the debts due by that firm to citizens of this and the neighboring town, they have acted in that spirit of equity and justice which should, and generally does, characterize the attitude of governments toward those with whom they may have differences. As the case stands the government have gained a cofferdam, payment for which under a hard and fast and onesided condition, (a condition that has called forth the severe reprobation of all the judges of the Supreme Court), they have avoided. Let us hope that the petition of right to the Lieut.-Governor will meet with a better fate than did the application to the Supreme Court for a writ of mandamus.

THE SYNDICATE.

Sir HUGH ALLAN'S election as president of the English syndicate is an additional guarantee of the early transference of the great work of overland railway construction to the hands of that powerful body of capitalists. Sir HUGH presided over the company that was formed in 1873 to construct our transcontinental railway. That company did not undertake the work because of the political overthrow of its friends that occurred in that year; but the enterprise is now revived on a healthier and more stable basis and with an enlarged land subsidy. Money is very cheap in London. The market is gorged with it, and railway enterprises on the American continent, which went under a cloud a few years ago, have lately risen in English favor. With the railway in the hands of the syndicate the prosecution of the work will not depend on an annual vote of the necessary funds by the House of Commons, or run the gauntlet of the adverse criticism of opposite parties with the possibility of an adverse vote always staring the country in the face. The scheme now in course of formation by the Canadian ministry in London will relieve the government of a heavy financial responsibility, and will ensure the speedy settlement of the lands and the early construction of the road, because it will be to the interest of the syndicate to push ahead with the utmost vigor. May we not again with propriety urge on the government the necessity of bringing to the immediate notice of the Canadian Government the propriety of delegating to the syndicate the task of constructing the little piece of railway between Esquimalt and Nanaimo, which has been often promised and as often delayed.

[Per steamer Isabel.]

An interesting discovery has just been made at Sandeherred, in Norway, of a Scandinavian war vessel. Buried under a hillock, a sailing vessel has been found, which is thought to have belonged to those terrible highwaymen of the ocean, the Vikings, or Norwegian pirates. It measures about seventy-five feet in length, and is in an almost perfect state of preservation. It is armed and equipped as though it had been abandoned where found when on the point of sailing on some adventurous expedition. All the apparatus used by nautical Norsemen are met with in this ancient craft, the mast of which is still pretty well intact. There are fragments of sails and cordage remaining, as well as many specimens either perfect or incomplete of utensils and instruments, which have been eagerly examined by antiquaries. Among other things are a number of pieces of oakwood, peculiarly shaped, wrought with a certain elegance, and hollowed out in the centre to admit of ropes being passed through them. Spades and shields, or bucklers, have also been found, or rather the iron portion of the bucklers, for the wooden part is entirely gone. Near the rudder the skeletons of three horses were discovered. The form of the shields and also the manner in which they are suspended round the interior of the ship, is absolutely the same as one sees represented on the beautiful tapestry of Bayeux, in Normandy, which dates back to the eleventh century. The ship is not yet completely dug out of its present prison near the seashore. When this has been accomplished, the ship—which is thought to be still seaworthy—will be launched and brought to Christinia to be deposited in the University Museum.

The splendid villa inhabited by Rossini at Passy was put up for sale recently. In accordance with the wishes of the late Mme. Rossini the vast domain was divided in three parts. The hotel, with its outer premises and garden, forming the first lot, was knocked down for 200,000f.

The Irish population at the end of May was 5,363,590, having been reduced again during the last three months by emigration. This brings it back almost to the numbers of 1803—5,216,329, since which time it had continued to increase. The lowest recorded total, however, was in 1875, or 5,309,494.

This year the opium crop in China will, the Bombay *Gazette* believes, be *nil* or next to that, while Central India promises 50,000 chests, though, as usual, the astute Marwarees have been loudly proclaiming a tenanna crop. But the fact is that new opium is coming this year in increased quantities.

Mr. Spurgeon, writing on Lord Ripon's appointment, says: "It is a great mistake; Protestant succession to the throne involves the Protestantism of the Viceroys."

The Treasurer of Cape Colony, in introducing his budget, announced that he did not think it necessary to increase taxation, which looks as if the British taxpayer is to pay all the Zulu war bills.

Another property has been purchased in Jersey to accommodate the religious orders about to leave Paris under the expulsion law. The property, which has cost £7,000, is intended for the ladies of the Order of Auxiliary Sisters.

Mr. Plimsoll states that the Canadian Minister of Marine has, at his request, promised to send over immediately a competent witness to explain to the committee on merchant shipping the method of grain loading in vessels adopted in Canada.

Some time ago Lord Ashburnham was willing to sell his invaluable collection of MSS., partly to the British Museum and partly to the National Library in Paris. These two great libraries could not afford the sum asked by Lord Ashburnham, and he is about to sell his MSS. to the Royal Library at Berlin for £120,000.

The Duke of Buckingham intends soon to resign the governorship of Madras. He is a widower with daughters only, and if he does not marry and have a son his dukedom will be extinct. His father collapsed financially, but the Duke inherited a great sum from an uncle, has been very prudent and is well-to-do.

It having been reported to the Commander-in-Chief of the British Fleet in the Mediterranean that piratical vessels have recently been committing acts of depredation in the neighborhood of Smyrna, the *Standard* says that Admiral Sir Beauchamp Seymour has despatched two of her Majesty's ships in search of the suspected pirates.

The statement that Sir Garnet Wolseley is to receive pecuniary reward for his services at the Cape, as he did for his services at Ashantee, is, according to the *Standard*, incorrect. Neither is Sir Garnet Wolseley granted additional rank in the army for his latest service, but reverts to his former rank of lieutenant-general from the date of his landing in England.

The British war vessels Minotaur and Agincourt recently made a successful trial of the electric light at Gibraltar as a means of examining land batteries and coast defences. Every nook and corner of the rock could be explored as the light was slowly directed over its surface, but it was very obvious that during the examination the vessels themselves became excellent marks for the enemy.

The extent to which *decollete* dresses have lately become fashionable has tardily attracted what Lord Beaconsfield would describe as "the attention of Majesty," and the Queen has expressed a wish that in future ladies will not attend court in a state of semi-undress. In fact, next season the wearers of any such costumes as astonished and horrified lookers-on at this year's Drawing Rooms will not be admitted.

The play, "Camille," has always been refused a license by the Lord Chamberlain of England on the ground that it is immoral. A clean, but weak version of the piece, however, under the title of "Heartsease," was passed by the censor, only to fail on the stage. Modjeska hit upon the expedient of bringing out that adaptation with the part of *Camille* nearly restored, and it is now running with great success at the Court Theatre.

A boat drifting down the Seine the other day was found to contain two children, a boy of two years and a girl of fifteen months, both in cradles. By their side was a sheet of paper on which was written, "I abandon you because I cannot bring you up, and I am going to drown myself because I cannot live without you, and since your father is dead, may they who find you take care of you." The children were taken to the Foundling Hospital.

In France during the January and February frosts, at Malain, a village near Dijon, celebrated for its walnut trees, whole orchards and fruit gardens were literally destroyed. In one of these frost-smitten gardens at Point de Pany nestled in a picturesque combe a visitor found almost complete devastation. Not only were young apple and pear trees destroyed but veterans of a century's growth. More extraordinary still was the devastation wrought among the walnut and oak trees, many of which, after weathering the frost for two hundred years and odd, succumbed to the winter of 1879-80.

A Parisian chemist has been sentenced to three months' imprisonment for carelessly causing the death of a man by misreading a prescription—very legibly written—and supplying a quarter of an ounce instead of eight drops of laudanum. The defendant's advocate actually urged as an extenuating circumstance that if the mistake had caused the deceased his life it had at least provided him with a painless death.

Canadian Mail.

[Per Steamer Isabel.]

An interesting story reaches us which, though the names are suppressed, appears to be true. In 1872 a young woman in this city married a mechanic. After living with him he turned to drinking, and she deserted him, going to Lynn, Mass. There she obtained work in a shoe factory, and, after a time, married one of the workmen. She lived with him about a year, and then quietly left for New York. In that city she again married, but the last husband used to beat her, and she departed and next turned up in San Francisco, where she got married for the fourth time—this time to a wealthy man, with whom she was living at the latest accounts. Her three deserted spouses have been in correspondence for some time, and have just lodged a complaint against their faithless wife for bigamy.—*Halifax Herald.*

TORONTO, July 9.—About eight o'clock to-night severe squalls passed over Lake Ontario, doing great damage to shipping and yachts in this harbor. Four boats containing four persons upset a short distance from the shore, but fortunately the occupants were saved. A boat containing two women and a man upset half way between the city and the island. A tug immediately went to their assistance, but, darkness coming on, could not find any trace, and it is feared that they are drowned. There is great excitement along the water front and all sorts of rumors are flying about as to the loss of life, but it is not definitely known yet.

MONTREAL, July 9.—In the Superior Court this afternoon the Hon. Justice Rainville gave judgment against Mr. F. B. McNamee for $200 and the costs of the suit in an action brought by Mr. Hickler, complaining of an article inserted in the Ottawa *Herald* some time ago, which insinuated that Mr. Hickler had profitted out of the disappearance of his partner, John Kelly, to the detriment of Mr. Kelly's wife, by the sale of property at a low figure. Kelly disappeared from Montreal mysteriously a few years ago and never has been heard of since, and it was proven that Mr. McNamee instigated the article in the *Herald* which also charged Hickler with knowing something of Keliy's disappearance.

HOW THEY RETRENCHED.—One day they happened to be talking before Emile Augier about a family whose means had been materially diminished, but who had not therefore ceased to live in a most expensive manner. "I never heard of anything of the sort," said one of the company, "they are ruined, and yet they live in as stylish a manner as ever." "Oh, that is simple enough, "said Augier; "formerly from time to time they paid some of their debts; now they pay none. They have retrenched their creditors."

TO BUSINESS MEN!

THE COLONIST has more than double the Circulation of any other Paper published in Victoria, and is the only Publication in the Province that receives Telegraphic Dispatches.

NAVAL.—The completion of the three British men-of-war, Inflexible, Ajax and Agamemnon, is promised during the next financial year. The Inflexible, the largest man-of-war afloat, is a vessel of 11,406 tons displacement; while the Dandolo and Duilio, her rivals in the Italian navy, are only 10,570 tons. The armament of the Inflexible, consisting of four 80-ton guns, is inferior to that of the Italian ships, each of which carries four 100-ton guns; but, on the other hand, it is said that structurally the English vessel is of greater strength than the Italian men-of-war. The Ajax and Agamemnon are sister ships, each of 8492 tons, so that by the completion of the three vessels 27,554 tons of ironclad shipping will be added to the immediately available strength of the British navy. The Ajax and Agamemnon carry only four 38-ton guns, but these weapons throw a projectile weighing 700 pounds.

MILITARY CAMP.—The artillery will go into camp next Thursday evening on Macauley's plains and remain there for ten days, during which time the annual shot and shell practice will be gone through. There is every probability that the encampment will terminate with a sham fight between H. M. ships in port and the batteries situated on Macauley's point and Brothers island, the artillery being reinforced by marines. The members of the battery who have not yet obtained their kits should apply immediately to the captain of the corps.

TO THE PUBLIC.—As I expect to leave Victoria in a very short time I will, during the remainder of the summer, do work at the following low rates. Finest Gold-lined Plate for Artificial Teeth, reduced from $35 to $25. Vulcanite Plate, reduced from $35 to $25, full Upper and Lower Sets. Teeth filled with Gold and Platina Alloy, reduced from $2.50 and $3 to $1.50 each cavity. Teeth extracted for fifty cents each. W. P. COOL. *

TIVOLI GARDEN. — An excellent programme has been drawn up for this evening's entertainment at Tivoli Garden (late St. Charles Music Hall). There will be an array of talent entirely new to this city and the other members of the company, who are already established favorites, will renew their efforts to delight the audience. The proprietor will make every provision for the comforts of those present. Admission, 25 cents.

CAPTAIN LEWIS.—We hear that this experienced and popular commander of Hudson Bay Co.'s steamers has tendered his resignation for the purpose of retiring from the service. The captain is widely known and liked, and his retirement will be regretted by all who have had the pleasure of his acquaintance or who have "gone down to the sea in ships" with him.

HOSE test at corner of Douglas and Yates streets at 2 o'clock this afternoon.

No business transacted at the Police Court yesterday.

Later from the Wreck.

The steamer Etta White arrived here yesterday morning from the ship Thrasher, wrecked on Gabriola Reef, bringing down Capt. Bosworth and Mr. T. E. Peck, receiver of wrecks at Nanaimo. The damage to the fore part of the ship has been repaired by divers, but it has been found impossible to get at the hole in the bilge. A considerable portion of the cargo has been removed and the vessel lies in an easy position, and so far as can be ascertained not a single butt is started. The pumping machinery is too light, however, to gain on the water. As the tide recedes the pumps make perceptible headway, but when the tide flows in again they lose more than they had previously gained. When the steamer Etta White left the wreck the gunvessel Rocket was still there. Capt. Bosworth came down expecting to be able to communicate by telegram with his owners and ascertain from them whether they desire to go to further expense in attempting to save the ship. But as the telegraph line is unfortunately down an annoying delay must necessarily occur.

THE CHINESE IN AUSTRALIA.—The city of Melbourne, Australia, has been having a series of meetings in regard to the Chinese and their interference with white industrial labor. Bids were recently invited for making 5,000 chairs for use in the International Exhibition, and the committee having the matter in charge awarded the contract with the positive understanding that only white persons should be employed in their manufacture.

THE American ship Chocorura, at Sydney from Boston, reports the death of her captain, Charles D. Matthews, two days after leaving port. On February 17th, a sea struck the vessel on the stern, breaking over and washing away the binnacle, and straining the after deckhouse, besides doing other damage on deck. The Chocurara, it will be remembered, loaded salmon at this port.

THE VALUE OF ADVERTISING. — An advertisement appeared in *The Colonist* yesterday morning offering a reward of $20 for the recovery of three lady's gold pins, lost by a gentleman on Wednesday evening. Before noon yesterday the reward was paid and the property restored to the owner by a poor man who found it. This is another instance of the value of advertising in a paper read by all classes.

VICTORIA SCHOOL TRUSTEES.—A meeting was held yesterday, when Ma Fell was re-elected president and Mr. A. Wilson secretary and treasurer. It was decided to advertise for teachers to fill the vacancies so as to enable the trustees to open the schools according to the Act on the first Monday in August.

ON DIT.—That the Hudson Bay Company's steamers Princess Louise and Enterprise will hereafter be run by one instead of two crews, as at present. One steamer will be loaded while the other is engaged making a trip to and from New Westminster.

THE bark Strathearn, having discharged her freight for this port, was hauled out into the stream yesterday and will sail for Portland to-night. Her cargo thus far has turned out in excellent order.

THE SYNDICATE.—Mr. Henry Nathan, ex-M.P., is a member of the new Canada Pacific syndicate, and will probably return shortly to reside in the Province.

HEMLOCK BARK.—The steamer Woodside arrived here yesterday afternoon from Sooke with cargo of this material for Heathorn's tannery.

COUNTY COURT.—At this court yesterday his Honor gave judgment against the defendant in a suit brought to recover a small amount.

FROM THE EAST COAST. — The steamer Cariboo-Fly with the mails and passengers from Comox, Nanaimo and way ports arrived here at 5:15 p.m. yesterday.

THE steamer Sir James Douglas returned to port yesterday afternoon from Nanaimo where she has been on M. & F. department business.

SALMON is accumulating at San Francisco. Prices $1.22 @ $1.25. For June 1,600,000 pounds were sent east by rail.

IT is stated that the Vancouver Coal Co. will shortly re-open the Newcastle mine.

THE steamer Alexander will be placed on Cook's ways to-day to receive a thorough overhauling.

MARINE.—The ship Eclipse, 1595 tons, is under charter at San Francisco to load a return cargo of Wellington coal.

THE V. G. Artillery will go into camp for ten days on the 29th inst. at 6:30 p.m.

DUE.—Steamships City of Chester and Empire are due to-day from San Francisco.

A Sensational Rumor About the Derby Winner.

The *Sportsman* says that a sensational rumor in regard to Bend Or gained credence and occasioned no little excitement on Saturday. It was to the effect that when the colts out of Rouge Rose and Clemence were delivered to the charge of Robert, the Duke of Westminster's trainer, as yearlings, a mistake was made in pointing out which was which. The contention is that the colt now known as Bend Or, with a white star and near white hind heel, was really Tadcaster, while the colt with a blaze on his face was Bend Or. The Duke's stud groom is credited with having detected the mistake through reading a description of the Derby winner, but no objection has yet been lodged. The Duke of Westminster has been communicated with, and is understood to have promised to refer to the Eaton Hall stud book to set the matter at rest. The *Times* says that whatever truth may be in the allegation concerning the Derby winner, there seems to be no doubt that when objection is made after the race to a winner's pedigree or nomination the bets go to the horse that comes in first provided it is of the right age and has not otherwise transgressed the rules of racing.

To be sold cheap for cash (to make room for fall and winter stock) a lot of Children's, Girl's and Misses' Strap Slippers at H. M. Cowper's Pioneer Boot Store, Government Street, next to the Bank of British Columbia. *

The Farmer's Column.

The Brazilian artichoke has much to recommend it as a prominent plant for the interest of the swine, and in no case should the hog raiser violate the necessity of growing a few acres for their particular special benefit.

The *National Live Stock Journal* publishes a statement by Prof. Weber, of the Illinois University, that Dr. Hass' hog-cholera specific is compounded as follows: "Cayenne pepper, common salt, calcium carbonate, magnesium, carbonate and water." That probably any amount could be made at 15 cents per pound.

A writer in the *Fancier's Journal* in speaking of ducks, pronounces the Aylesbury and Pekin the best varieties, the former being noted for its large white eggs and delicately-flavored flesh, and the latter for the richness of its eggs, good constitution and rapid fattening. The Rouen is pronounced only slightly inferior in flavor and in quality of eggs to the above, matures earlier, and is hardier.

Large quantities of sugar beets will be grown this year in Canada, Maine, Massachusetts, Deleware and California. Between the beet, sorghum and corn the problem of manufacturing sugar in this country seems likely to be solved. Perhaps the planters of sugar cane in Louisiana will cultivate the beet, as they could doubtless raise two crops yearly, like the Creole planters of tobacco on the banks of the Mississippi.

In some parts of Germany, instead of smoking meat to preserve it, it is hung up in a dry, well-ventilated room, and painted over with wood vinegar (pyroligneous acid,) an acid distilled over when wood is burned in air-tight stoves, or any other place where there is not free access of atmospheric air. The painting three or four times with this vinegar answers every purpose of smoking. It protects the meat from insects, fungi and putrefaction.

A special committee, appointed for the purpose of testing an Ayrshire cow belonging to the herd of Wolcott & Campbell, New York mills, Utica, state, under oath, that she gave eighty-five pounds of milk per day, several days in succession. This, in all probability, is the largest product recorded of the Ayrshire cow, amounting to about 30 quarts. On account of this large record let no one lightly esteem their cow which gives twenty quarts per day.

The best soil for sweet potatoes is a sandy loam. If sand largely predominates they will flourish if well manured. New ground or virgin soil is especially favorable for this crop. It is the common practice to sow buckwheat on new land for the first crop and then to plant sweet potatoes for the second. An abundant crop is the general result. In a heavy loam the vines grow luxuriantly, but the tubers are generally small, rooty and of inferior quality. In clayey soil sweet potatoes will not thrive.

The New York *Tribune* says: It is folly to keep old sheep. They should be turned off to the butcher while they are in their prime. It does not take half so much to fatten them then. When they get old and thin, in order to put them in condition to slaughter, the whole superstructure must be rebuilt. Four sets of lambs are all a ewe can bear; this will bring her to five years, and this is an age when, with a little care, she will round up to a fine carcase. Exceptions may be made when the breed is scarce, and the blood is more valuable than anything else."

If taken internally with their food, sulphur will almost invariably keep all kinds of animals free from lice. We have made a practice for years past of giving a heaping table-spoonful once a week in the feed of each of our cows, and the same quantity to about every ten hens in our flock, and they have never been troubled with lice. It may be given in the same proportion as to size when required in the food of poultry, pigs and sheep. Sulphur is a mild cathartic when used for this purpose, and in small doses seems to have a general beneficial effect on the animal system, something like salt, though, of course, not of that nature.

Hon. George Geddes gives, in the *Country Gentleman*, the following method of making what he considers the best farm gate: Take two boards twelve feet by six inches for top and bottom; three intermediate ones twelve feet by five inches; one for main brace thirteen feet by six inches, to reach from upper hinge (at top of gate) to foot of latch post; one twelve feet by four inches to cover all top of gate; two four feet and four inches by six inches for hinge post; five same length by four inches for latch-post and three vertical braces. He makes the spaces, counting from the top, eight, seven, six and five inches, discarding any hinge projecting above the gate, and binding all well together by a strong hinge at the top, around the upright and the end of the hinge being well bolted.

A GENTLEMAN in a town near Boston invited home to dinner one day one of the deacons of the church he attended. The guest offered blessing at the table, which proceeding greatly excited the curiosity of the gentleman's five-year-old son, who sat beside the deacon and interviewed him on the subject. "What was that you said?" he began. "It was a blessing on the food we are about to eat," replied the deacon. "A what?" "Why, a blessing. Don't your your father ask a blessing at the table?" "Oh, yes, but he don't say it in that way." "How does he say it?" "Why, he sits down and looks at the table and says, 'Oh, the devil! is this all you've got for dinner?'"

STAMP ACT.—Cards of the scale of fees payable under the Stamp Act may be obtained at *The Colonist* stationery store. Every business man should have at least one. *

LANDLORD AND TENANT IN IRELAND.

An Irish Peasant Fatally Shot by a Landlord.

The *Irish Times* describes the late fatal shooting affray at Drumcromana:—Some time ago a man had been evicted by a local landlord, Mr. Acheson (since deceased), from a farm on his estate at Drumcromana for non-payment of about four years' rent. As is stated, since that time the holding has been unoccupied, and was used as a common. About two months ago Mr. Henry Acheson, one of the three sons of the deceased gentlemen, a youth of eighteen years of age, went to the place with some labourers, intending to erect a fence around the land, which consisted of about five acres; but a large crowd of men with blackened faces, and some of them armed with guns, assembled and fired several shots at him, fortunately without inflicting any injury. Mr. Acheson was forced to run for his life, and till the other day no attempt was made to again enclose the farm. One morning, however, about 11 o'clock, Mr. Henry Acheson, who, it may be remarked, is eighteen years old, accompanied by seven labourers, and escorted by fourteen of the Royal Irish Constabulary, proceeded from Croghan, the residence of his mother, Mrs. Acheson, to Dromcromana for the purpose of placing a fence around the holding. They had not been at work more than an hour and a half when they saw in the distance a large number of men advancing across the country towards them. As the crowd, which numbered over a thousand men, approached it was joined by another party, and both parties were then perceived to be armed with sticks, spades, and pitchforks, while from the subsequent firing which took place some must evidently have carried firearms. They were shouting loudly, and presented a menacing aspect. One of the labourers who were working at the fence said it would be better to go way, as they would be attacked if they remained on the ground. But the police told Mr. Acheson they would protect him if an attack were made. During that time the crowd had come within close distance; they halted, and an old man advancing out from them came up to Mr. Acheson, and addressing him said, "Why do you want to disturb the peace of the country?" Mr. Acheson replied that he merely wanted to put a fence around his land. The old man then returned to the crowd, to whom, as it appeared to those who were with Mr. Acheson, he repeated the conversation. The people seemed disatisfied with what he said to them, and they knocked him down. They then rushed forward with a loud shout towards Acheson's party, knocking down one of the labourers by the blow of a spade or a pitchfork on the head, and Mr. Acheson himself received a stab in the side. His men called on him to run, and just then several shots were fired at him by the crowd. Mr. Acheson then ran, his labourers and the police also running. The whole crowd pursued for some time, but were gradually distanced. Five men, however, continued to follow closely. One of them named Meehan, who was armed with a spade, at length reached Mr. Acheson, who, drawing a revolver, told him to stand back or he would fire on him. Meehan, however, disregarded the threat, and with his spade raised ran forward. Mr. Acheson fired twice to right and left of the man, with the apparent intention of frightening him. But his antagonist, undaunted, dashed on towards him, and then, levelling his revolver at him, Mr. Acheson shot him, the bullet taking effect in the side. Meehan fell forward on the grass. The police, who during the chase had become separated from Mr. Acheson, then came up, and putting him on his car, which had been left by him waiting on the road, and which was fortunately near, drove with him into Billinamore, where he at present remains under arrest. In the meantime the wounded man was borne in the neighbouring cottage, where he died in seven hours afterwards. Mr. Acheson is stated to enjoy the reputation of an indulgent landlord, and appears to be well liked by all in the neighbourhood.

Landlord and Tenant Bill.

The following is the full text of the bill introduced by Messrs. O'C. Power, Gray, O'Shaughnessy, Commins and Synan. It is entitled "A Bill to Amend the Landlord and Tenant (Ireland) Act, 1870," and it is as follows:

"Whereas it is expedient to amend the 'Landlord and Tenant (Ireland) Act, 1870.'

Be it therefore enacted by the Queen's most excellent Majesty, by and with the advice and consent of the Lords spiritual and temporal and Commons in this present Parliament assembled, and by the authority of the same as follows:—

1. From the passing of this Act so much of section 9 of the Act of the 33d and 34th years of her Majesty, chap. 46, as provides that ejectment for non-payment of rent shall not be deemed a disturbance of the tenant by the act of the landlord shall be repealed, and in case of a tenancy or holding determined by such ejectment or other legal process on the part of the landlord for such non-payment, the court shall consider such a determination of the same as a disturbance by the act of the landlord, without prejudice, nevertheless, to any rights which such landlord may have under the said Act or otherwise to any deduction from or set off against the tenant's claim for compensation under the said Act for such disturbance or determination of his said tenancy.

2. This Act shall be construed with, and form part of, the Landlord and Tenant (Ireland) Act, 1870, and may be cited as the Landlord and Tenant (Ireland) Act, 1870."

A Complete Cure.

102 BAGG ST., Detroit, Mich., July 11, 1879.

H. H. WARNER & Co., Rochester, N.Y.
GENTLEMEN:—About five years since I was taken with an affliction of the liver, which gradually developed itself into chronic liver complaint. I tried numerous remedies without receiving any benefit, and I gave up all hope of ever being restored to sound health, when a friend recommended me to try Warner's Safe Kidney and Liver Cure. I procured it, and, strange to relate, after using two bottles, felt my system undergoing a great change, which ended in a complete cure, and I have had no return of the disease since. Very respectfully yours,
7 E. W. NEFF.

Holiday Presents.

Make your wife a present of a cooking stove or range manufactured at the Albion Iron Works, and you are bound to have a Christmas and New Year's dinner worth eating.

They are the pride of every household and when you go home to your meals, your wife will meet you with a smile and a well-cooked meal.

These are the only stoves that contribute to domestic happiness.

HALL'S VEGETABLE SICILIAN HAIR RENEWER is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores grey hair to its original color. It makes the scalp white and clean. It cures dandruff and humors and falling out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially indorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world. For sale by all dealers. 5dw

NO RISK.

Thomas' Eclectric Oil! Worth Ten Times its Weight in Gold. Do you know anything of it? If not, it is time you did.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common SORE THROAT. One Bottle has cured BRONCHITIS. Fifty cents' worth has cured an OLD STANDING COUGH. One or two bottles cures bad cases of PILES AND KIDNEY TROUBLES. Six to eight applications cure ANY CASE OF EXCORIATED NIPPLES OR INFLAMED BREAST. One bottle has cured LAME BACK of eight years' standing. Daniel Plank, of Brookfield, Tioga County, Pa., says: "I went thirty miles for a bottle of your Oil, which effected a WONDERFUL CURE OF A CROOKED LIMB by six applications." Another who has had ASTHMA for years, says: "I have half of a 50 cent bottle left, and $100 would not buy it if I could get no more."

Rufus Robinson, of Nunda, N. Y., writes: "One small bottle of your ECLECTRIC OIL restored the voice where the person had not spoken above a whisper in FIVE YEARS." Rev. J. Mallory, of Wyoming, N. Y., writes: "Your ECLECTRIC OIL cured me of Bronchitis in one week."

It is composed of SIX OF THE BEST OILS THAT ARE KNOWN. Is as good for internal as for external use, and is believed to be immeasurably superior to anything ever made. Will save you much suffering and many dollars of expense.

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cents. A BYLAW
FOR RAISING A MUNICIPAL REVENUE ON REAL AND PERSONAL PROPERTY IN THE YEAR 1880.

1. Be it enacted by the Mayor and Council of the Corporation of the City of Victoria as follows:—

2. There shall be raised, levied and collected in the year 1880 upon all real and personal property mentioned in the assessment roll in force in the City an equal rate of eight-tenths of one per cent. on the assessed value thereof as appears by the said roll.

3. The aforesaid taxes shall be due and payable by the person or persons liable for the same to the Collector for the Municipal Council at his office in the City Council Chambers, Victoria, on the fifteenth day of July, in the year 1880.

4. The Victoria Revenue Bylaw, 1879, so far as the same relates to the imposition of a tax or rate of eight-tenths of one per cent. in the year 1880 upon the assessed value of the real and personal property mentioned in the assessment roll for the time being in force is hereby repealed providing always that all payments of the said rate for the year 1880 already made by any person or persons shall be dealt with in the same manner and be as valid in all respects as if the same had been made after the passing of this Bylaw and under the provisions thereof.

5. The special rate imposed by the Water Works Debenture and Revenue Bylaw, 1877, and by the Bylaw to authorize the raising of twenty thousand dollars, 1878, shall continue to be raised, levied and collected in addition to all rates and taxes imposed under this Bylaw and shall be applied to the purposes specified in the said Bylaws respectively.

6. The annual tax authorized to be assessed, levied and collected by the Victoria Road Tax Bylaw, 1877, as amended by the Victoria Road Tax Amendment Bylaw, 1877, shall continue to be assessed, levied and collected in addition to the rates and taxes imposed by this Bylaw and shall form part of the general Municipal Revenue.

7. Clause 10 "The Victoria Revenue Bylaw, 1879," is hereby amended by striking out the word "three" immediately before the word "calendar" in the last line thereof and inserting in lieu thereof the word "one."

8. Schedule A of "The Victoria Revenue Bylaw, 1879," is hereby amended by inserting therein after the words "Every proprietor or manager of any theatre within the City limits for a single entertainment $5" the following words "and for a week $15," and by inserting therein after the words "and for the minor exhibitions for single entertainments $2 50" the following words "and for a week $7 50." And by striking out the figures $10 after the words "every commercial traveller" and inserting in lieu thereof the figures $20.

9. The Victoria Revenue Bylaw, 1879, as amended by the Victoria Amendment Revenue Bylaw, 1879, and by this Bylaw shall continue in force and all licenses and taxes imposed thereby shall continue to be collected thereunder.

10. This Bylaw may be cited as the Revenue Bylaw, 1880.

Passed the Municipal Council June the 29th, A.D. 1880.

J. H. TURNER,
WILLIAM LEIGH, MAYOR.
Clerk of the Municipal Council,
Victoria, B.C. jy3

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Havana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory
The best and cheapest in Victoria.
